Receiving patients from 1 January 1989 Provincial Hospital No. 2 them. St. Queen Jadwiga, in Rzeszow, ul. Lviv 60 - with 824 beds for adults and children - a complex of modern buildings to house several departments, teams of specialist clinics and diagnostic facilities, and laboratories. Regional Hospital No. 2 them. St. Queen Jadwiga, in Rzeszow, which is one of the largest facilities in the region Healthcare first received a number of quality certificates that attest to competence in the performance of medical services.

For Emergency Rescue Department main constructor – Inzynieria Rzeszow company – chose Uponor installations. The building has been equipped with Uponor radiator heating systems and cooling systems in MLC with diameters from 16 up to 110 mm. The reason to choose Uponor products was high quality, durability and good guarantee conditions, what is especially important in case of hospitals. Uponor is the best solution where system reliability can have influence on human

life.
